

VENTING CLIP INSTALLATION INSTRUCTIONS

KIT 550003416

For UCS, DMG, MAC, DCC Boilers

Kit installation shall be completed by qualified agency.

⚠ WARNING

Fire, explosion, and asphyxiation hazard. Improper installation could result in death or serious injury. Read these instructions and understand all requirements, including requirements of authority having jurisdiction, before beginning installation. Installation not complete until appliance operation is verified per Installation, Operation & Maintenance Manual provided with boiler.

⚠ CAUTION

Laceration, burn hazard. Metal edges and parts may have sharp edges and/or may be hot. Use appropriate personal protection equipment to include safety glasses and gloves when installing or servicing this appliance. Failure to follow these instructions could result in minor or moderate injury.

Venting Clip Installation Instructions

1. Follow all codes, standards and safety requirements as listed in the Installation, Operation and Maintenance Manual provided with your boiler.

⚠ WARNING

Burn hazard. Verify venting has cooled before servicing. Use appropriate personal protection equipment.

2. Clip may be installed upon initial venting installation or after initial install.
3. If after initial installation remove nuts and bolts from clip follow orientation and proceed.
4. Place dimpled end of clip over male end termination. Place side with no dimple over female end.
5. Place smaller diameter end of clip up tight to collar of smaller pipe before tightening nuts and bolts.
6. Replace nuts and bolts if removed. Tighten Clip with provided nuts and bolts. Dimples must grip pipe securely. Do not overtighten clip. Use hand tools only.
7. Resume operation using OPERATING INSTRUCTIONS found on Operating Instructions label on boiler or in Installation, Operation & Maintenance Manual.
8. Check for leaks.
9. Verify proper operation
