FOURNAISE À AIR CHAUD AU MAZOUT

Instructions destinées au propriétaire

⚠ AVERTISSEMENT
Danger d'incendie, d'explosion, d'asphyxie ou d'électrocution. Une mauvaise installation et un fonctionnement inadéquat pourraient entraîner la mort ou des blessures graves. Il est recommandé de lire ce manuel et de bien comprendre toutes les consignes avant de mettre la fournaise en marche.

⚠ AVERTISSEMENT
S'assurer qu'il n'y a aucun matériau combustible, essence et autre gaz ni liquides inflammables à proximité de la fournaise. Ne pas emplier, ne pas ranger d'articles ni entourer la fournaise à une distance inférieure aux dégagements nécessaires par rapport aux matières combustibles. NE PAS obstruer les bouches d'aération de la pièce où se trouve la fournaise. Toute modification, tout remplacement ou toute élimination de composants installés en usine, fournis ou spécifiés peut entraîner des blessures ou même la mort. À L'INTENTION DU PROPRIÉTAIRE : L'installation et l'entretien de cet appareil doivent être réalisés par un installateur qualifié. À L'INTENTION DE L'INSTALLATEUR : Toutes les directives doivent être conservées à proximité de l'appareil pour consultation ultérieure.

ecr LIMITED WARRANTY
Oil Furnaces And Air Conditioning Units

PLEASE NOTE: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state.

Limited Lifetime Heat Exchanger Warranty (Oil Furnaces Only)
Subject to the restrictions and limitations contained in this Limited Lifetime Heat Exchanger Warranty, ECR warrants from the date of original manufacture, to the Original Purchaser, during his or her lifetime, that the Heat Exchanger in Oil Furnaces will be free from defects in materials and workmanship, provided however, this Limited Lifetime Heat Exchanger Warranty shall not apply to the original installation of the furnace or a separate family dwelling unit, used without interruption by the Original Purchaser at the site of original installation.

Where the Furnace is installed in a premises other than the principal residence of the Original Purchaser, this Limited Lifetime Heat Exchanger Warranty will be restricted to be free from manufacturer's defects for a period of ten (10) years from the date of original installation.

In any case where "Proof of Original Ownership" cannot be provided, the Limited Lifetime Heat Exchanger Warranty will be limited to ten (10) years from the date of original manufacture.

Five-Year Parts Warranty - Residential Applications
All ECR Furnaces with a manufacture date of July 1, 1999 or later will carry a five-year parts warranty. Under this warranty, ECR warrants to the Original Purchaser that any component to the Furnace will be free from defects in materials and workmanship for a period of five (5) years from the date of original installation, except as provided in the Limited Lifetime Heat Exchanger Warranty and Limited Lifetime Heat Exchanger Warranty, set forth above.

This 5-Year Parts Warranty shall not apply to normal maintenance items such as filters, fan belts, blower or other consumables. Items to be replaced under this Five-Year Parts Warranty shall bear the responsibility of the purchaser.

Furnaces - Non-Residential Installation
Where a Furnace is installed in an application other than a single family dwelling, the unit will carry a one (1) year parts and a ten (10) year Limited Lifetime Heat Exchanger Warranty. The Limited Lifetime Heat Exchanger Warranty shall apply only to the original installation and is not transferable to another owner/owner.

The 1-year warranty shall not apply to normal maintenance items including, but not limited to, belts, filters, fans or other consumables. It is to be noted that the 5-year parts warranty cover labor for replacing parts.

Exceptions to Warranty
This Limited Warranty does not cover:
1. Damages, defects or failures caused by fire, lightning, flood, explosion, theft, war, sabotage, vandalism, riot, or other external causes.
2. Damages or defects that affect the physical appearance of the unit but do not affect the operational characteristics of the unit.
3. Damages, defects or failures caused by faulty installation, transportation, storage, improper handling, electrical disturbance, improper operation or failure to comply with the specifications and recommendations of ECR set forth in the installation or use manual provided by ECR.
4. Damages, defects or failures caused by installation or servicing of the unit by an unlicensed installer or technician, including without limitation, damages caused by the misalignment of the burner or the refractory chamber being installed or repaired.
5. Damages, defects or failures caused by installation that is not performed in accordance with all applicable federal, state and provincial laws or regulations.
6. Damages, defects or failures caused by accident or negligence or the inadequacy or interruption of electrical service.
7. Damages, defects or failures caused by accident or negligence, or unreasonable use or operation of the unit and/or components, including without limitation, operation beyond rated capacity and operation of electrical components as voltage other than that specified on the rating plate.
8. Damages, defects or failures caused by failure to protect a Furnace and its components against freezing.
9. Damages, defects or failures caused by the use of parts not recommended by ECR or the use of any parts recommended by ECR for use in a unit that is not manufactured by ECR.
10. Damages or failures that result from a unit being operated in circumstances contemplated by combustible components as voltage other than that specified on the rating plate.
11. Damages, defects or failures caused by modification or repair not approved by the furnace being greater than 20% from out of door (ODP) minimum return air temperature.
12. Damages, defects or failures caused by the furnace being installed downstream from a ducting coil.
13. Damages, defects or failures caused by operation of the unit in abnormal environmental conditions.
14. Damages, defects or failures as a result of operating a furnace with an indoor air quality component control that does not meet ECR's specifications, or
15. Damages, defects or failures as a result of installing or operating an ECR component with an indoor air quality component that is not a matching capacity.
