

Bulletin Number: DPB-052015

Date: 05/29/2015
Product: Buffer Tank
From: Marketing
Title: New Product

ECR is pleased to announce the addition of a 22 gallon model to the H2O Buffer Tank Line. This new tank has all the great features as the rest of the H2O line:

- 316L Stainless Steel construction
- 1-1/4" tappings for peak performance
- Low pressure drop
- 2-1/4" EPS foam insulation – Less than ½ °F loss per hour!

See below for SKU and trade pricing. If you have any questions, please contact your Dunkirk Boiler Representative or ECR Regional Sales Manager.
