

Bulletin Number: DPB-102114

Date: 10/21/2014
Product: Dunkirk CCB & CHB Boilers
From: Marketing
Title: Direct Vent Connector

When installing a CCB or CHB boiler as a Category III appliance, you will need to purchase an appliance adapter along with your venting material. The appliance adapter is brand specific to the manufacturer of your choice of vent pipe.

The appliance adapter connects directly to the boiler flue connector.

A sample appliance adapter is shown below:
