

May 25, 2023

Dear Valued Customer:

In a continued effort to provide you product in a timely fashion, ECR International will no longer offer dedicated SKUs for LP boilers or high-altitude derivatives of our cast iron product offering. Our gas-fired cast iron line of products will be manufactured with a Natural Gas configuration at sea level. We offer both Natural Gas to LP conversion kits and high-altitude conversion kits for elevations from 2000' up to 10,000'. Conversion Kits must be ordered separately to be field installed.

The SKUs for the updated kits have been added into the parts pricing files and the price-books for each brand to be downloaded from the ECR Customer Web Portal at <https://www.ecrcustomerportal.com>.

This change will be taking effect June 14th. If you have any questions regarding these changes, please contact your ECR Sales Representative, Regional Sales Manager or Customer Service Representative.

Bob Shea

Executive Director of Sales
ECR International
