EMI - Sales Bulletin

May 29, 2015

TO: EMI Representatives and Distributors

FROM: Joe Langlois, Marketing Manager

SUBJECT: Enviroair Packaged Terminal Air Conditioners and Heat Pumps

EMI is pleased to announce the new line of Enviroair PTAC units. Enviroair's new line of PTAC's are designed to fit standard 16" x42" wall sleeves and are ideal for both replacement applications and new construction.

Features include:

- Cooling and Heating Range: 9,000-15,000 Btuh
- 208/230V, 60Hz, 1Ph - Standard
- 3.5 kWh Electric Heat - Standard
- High Efficiency: cooling models up to 11.3 EER, heat pump models up to 3.4 COP
- Quiet operation with indoor fan noise in the 45 to 53 dB(A) range
- User-Friendly
 - Memory function: if power is lost all control settings remain.
 - Automatic quick warm-up (Heat Pump models only)
 - Fresh air setting
 - Easy to use LED indicators and buttons
- Energy reducing function: Fan continues to run after the compressor shuts off keeping the room cool longer. Compressor works less reducing operating costs.
- Compressor re-start delay: Prevents shorts cycling and allows refrigerant pressures to equalize
- Automatic evaporator freeze protection
- High temperature protection in heating operation
- Control configurations:
 - Unit mounted electric control panel – standard
 - Front office control function – standard
 - Wired remote thermostat– optional
