

Dear Valued Customer,

Effective September 23, 2022, ECR will be implementing a new trade price sheet. Global prices continue to rise as a result of supply chain disruptions, and material and labor costs. As the industry continues to battle significant inflation entering the 2022 / 2023 heating season, ECR has tried to minimize these increases for our customers. Price increases vary across product categories as noted below:

All Brands - Categories	Price Increase Percentages
Cast Iron Boilers - Gas	6%
Cast Iron Boilers - Oil	8%
Condensing Boilers - All SKUs	5%
Cast Iron Commercial	10%
Electric Boilers & Argo Controls - All SKUs	5%
Furnaces - All SKUs	8%
H2O Indirect Water Heaters - SST - All SKUs	3%
H2O Indirect Water Heaters - Glass Lined - All SKUs	5%
Parts	5%

Please check the new list prices when distributed per electronic file. All finished goods and repair parts pricing will be loaded and available on your ECR Distributor Web Portal.

Should you have any questions regarding these changes please do not hesitate to contact your ECR Representative, Regional Sales Manager, or Customer Service Representative.

Sincerely,

Bob Shea
Executive Director of Sales
ECR International
