

Dear Valued Customer,

Effective January 17, 2022, ECR will be implementing a new trade price sheet. Price increases continue to be a direct result of supply chain concerns, material costs and shipping, and will vary based on the product family as noted below:

Product (All Brands)	Price Increase Percentages
Cast Iron Boilers – All SKUs	5%
Copper Boilers – All SKUs	4%
Condensing Boilers – All SKUs	4%
Electric Boilers & Argo Controls – All SKUs	4%
Furnaces – All SKUs	4%
H2O Indirect Water Heaters – SST – All SKUs	4%
H2O Indirect Water Heaters – Glass Lined – All SKUs	4%
All Parts	5%

Please be sure to check these new list prices when distributed per electronic file. All finished goods and repair parts pricing will be uploaded and available on your ECR International Distributor Web Portal at <https://www.ecrcustomerportal.com>.

Should you have any questions regarding these changes please do not hesitate to contact your ECR representative, Regional Sales Manager or Customer Service Representative.

Sincerely,

Bob Shea
Executive Director of Sales
ECR International, Inc.
