

11-17-2021

Dear Valued Customers,

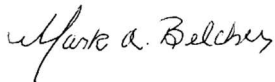

Due to supply shortages of oil nozzles the lead time for Olsen and Airco branded UML and LRF furnace models will be extended out until May 2022. These models at present can be ordered with Riello or Carlin burners.

We are doing everything we can to produce product for our wholesale partners. ECR will be posting this document to our customer web portal and will be updating when necessary. Please periodically visit the portal to confirm approximate lead times.

Product Family	Best Estimate - Order Confirmation Dates
UML & LRF Oil Fired Furnaces with Beckett Burners	May 2022

We thank you for your continued business and support during these trying times and we will continue to provide you with realistic expected dates for your purchase orders.

Sincerely,
ECR International
