## Table of Contents

<b><u>Condensing Natural / LP Boilers with [AI] Control (Gas Adaptive)</u></b>		<b><u>4-7</u></b>
<b>MAC/MAH</b>	Stainless Steel Wall Hung Combi & Heating Boilers (93.5-205 MBH)	<b>4</b>
<b>MACF/MAHF</b>	Stainless Steel Floor Standing Combi & Heating Boilers (125-205 MBH)	<b>6</b>
<b><u>Condensing Natural / LP Boilers</u></b>		<b><u>8-15</u></b>
<b>UB90</b>	Cast-Aluminum Floor Standing Heating Boilers (50-100 MBH)	<b>8</b>
<b>SSC</b>	Stainless Steel Wall Hung Heating Boilers (50-200 MBH)	<b>10</b>
<b>UCS 240</b>	Stainless Steel Wall Hung Heating Boilers (241 MBH)	<b>12</b>
<b>UCS 380</b>	Stainless Steel Floor Standing Heating Boilers (379 MBH)	<b>14</b>
<b><u>Controls &amp; Venting</u></b>		<b><u>16-19</u></b>
<b>MBC</b>	Multiple Boiler Control (MBC) On/Off	<b>16</b>
<b>WI-FIT-STAT</b>	Argo Wi-Fi Thermostat	<b>16</b>
<b>VENTING</b>	Coaxial, Twin Pipe & CPVC Venting for Condensing Boilers	<b>17</b>
<b><u>Natural / LP Boilers</u></b>		<b><u>20-35</u></b>
<b>CUB</b>	Copper Wall Hung Combi & Heating Boilers (100-150 MBH)	<b>20</b>
<b>SVB</b>	Cast-Iron Induced Draft Chimney/Sidewall Vented Boilers (42.5-187.5 MBH)	<b>22</b>
<b>MGB-K</b>	Cast-Iron Chimney Vented Boilers (50-299 MBH)	<b>26</b>
<b>MGC</b>	Cast-Iron Chimney Vented Boilers (50-299 MBH)	<b>26</b>
<b>PEG-E</b>	Cast-Iron Steam Boilers (75-299 MBH)	<b>30</b>
<b>JE COMMERCIAL</b>	Cast-Iron Commercial Steam Boilers (300-1,500 MBH)	<b>32</b>
<b><u>Oil Boilers</u></b>		<b><u>36-47</u></b>
<b>TRIFIRE TRB</b>	Cast-Iron 3-Pass Boilers (105-231 MBH)	<b>36</b>
<b>DHW MODULE</b>	Domestic Hot Water Module	<b>36</b>
<b>STARFIRE SFH</b>	Cast-Iron Chimney Vented Boilers (119-259 MBH)	<b>40</b>
<b>SBO</b>	Cast-Iron Steam Boilers (119-210 MBH)	<b>44</b>
<b><u>Indirect Tanks</u></b>		<b><u>46-55</u></b>
<b>H2O GL</b>	Single Coil Glass Lined Indirect Water Heaters (31-106 GALS)	<b>46</b>
<b>H2O SC</b>	Single Coil Stainless Steel Indirect Water Heaters (30-115 GALS)	<b>48</b>
<b>H2O DC</b>	Single & Dual Coil Stainless Steel Solar Water Heaters (60-115 GALS)	<b>50</b>
<b>H2O BT</b>	Stainless Steel Buffer Tanks with and without Coil (22-115 GALS)	<b>52</b>
<b>H2O ST</b>	Stainless Steel Storage Tanks (30-115 GALS)	<b>54</b>
<b><u>Terms, Shipping &amp; Delivery Policy, RMA Policy</u></b>		<b><u>56-58</u></b>

## MAC/MAH Stainless Steel Wall Hung Combi & Heating Boilers

- MBH Input 93.5 - 164 (CH) / 115.5 - 205 (DHW)
- 95% AFUE  
ENERGY STAR® Certified
- [AI] Control Technology Recognizes Natural or LP Gas  
No field conversion kit required.
- 6.9:1 Turndown Modulation Ratio in DHW Mode(115)  
7:1 Turndown Modulation Ratio in DHW Mode (150/205)  
5.6:1 Turndown Modulation Ratio in CH Mode (100/115)  
5.7:1 Turndown Modulation Ratio in CH Mode (125/150)  
5.5:1 Turndown Modulation Ratio in CH Mode (165/205)
- 2.5 gpm DHW @ 70°F Rise (115)  
3.5 gpm DHW @ 70°F Rise (150)  
5 gpm DHW @ 70°F Rise (205)
- LABOR SAVER™ Primary/Secondary Manifold Included
- Low Water Pressure Switch
- Wall Hung or Floor Stand Kit Available

General Information (See IOM for Complete Instructions)

## UB90 Cast-Aluminum Floor Standing Heating Boilers

- MBH Input 50 - 100 (CH)
- 90% AFUE  
ENERGY STAR® Certified
- Natural or LP Gas
- High Efficiency Cast Aluminum Heat Exchanger
- Fuel Smart Hydrostat Control: Temperature Limit
- Low Water Cut Off (LWCO)
- Boiler Reset
- Compact Design, Floor Standing Design
- Stainless Steel Premix Burner
- Sealed Combustion
- Induced Draft Blower with Adjustable Exhaust

General Information (See IOM for Complete Instructions)			
Model	UB90-50	UB90-75	UB90-100
Water Return/Supply	1 1/4" NPT

## SSC Stainless Steel Wall Hung Heating Boilers

- MBH Input 50 - 200 (CH)
- 95% AFUE  
ENERGY STAR® Certified
- Patented High-grade 316L/444 Stainless Steel Fin Coil Heat Exchanger  
Patent No. 10,012,413
- User Display Interface: Easy Programming with Text Display
- Built-In Primary/Secondary Piping
- Built-In Low Water Cut Off
- 5:1 Turndown Ratio
- Low Maintenance, Self-Cleaning Vertical Heat Exchanger
- Wall mounted, Bracket Included

## UCS-240 Stainless Steel Wall Hung Heating Boilers

- MBH Input 241 (CH)
- 95% AFUE  
ENERGY STAR® Certified
- LABOR SAVER™ Manifold Included
- 6.7:1 Modulation Turndown Ratio
- Wall Hung or Floor Base Kit Available
- Anti-Wind Function: Control automatically adjusts the fan speed to prevent loss of flame and lockouts
- Flame Stabilization: Control allows the flame to stabilize before modulating, preventing flame drop outs and recycling
- Optional Plug-and-Play, CSD-1 Kit Available

General Information (See IOM for Complete Instructions)		
Model	UCS-240	
Water Return/Supply	1"	
Gas	3/4" NPT	
Condensate Drain	3/4" NPT	
Electrical	120 Volts AC, 60 hertz, 1 phase, less than 12 amps (15 amp circuit recommended)	
Water Content (Gallons)	.8	
Dimensions	A-Height	31 1/16"
	B-Width	17 3/4"
	C-Depth	23"

## MBC Multiple Boiler Control

- Operation of up to Four Boilers
- LCD Display
- Push Buttons for Navigating Settings
- Warm Weather Shutdown (WWSD)
- Set Back Scheduling
- Boiler Stage Delay
- Boiler Rotation
- Combustion or Alarm Control Relay
- Flow or Combustion Air Proof Delay
- Energy Management System Compatible (0-10 or 2-10 Vdc)
- Sensors Included:
  - (1) Outdoor Sensor
  - (2) Water Temperature Sensors

MBC - Staging Control

## ARGO Wi-Fi Thermostat

- Remote access and monitoring
- Improved serviceability. Having your installer connected provides better service
- Enjoy comfort, energy savings and lower utility bills
- Connect to compatible Utica Boilers for additional benefits and monitoring capabilities
- Connect to multiple smartphones
- Control multiple thermostats from a single smartphone or tablet
- Switch between manual and schedule modes
- Ability to lock thermostat settings
- Display Setting can be set to Fahrenheit (°F) or Celsius (°C)

## CUB Copper Wall Hung Combi & Heating Boilers

- MBH Input 50 - 150 (CH) / 150 (DHW)
- 85% AFUE
- LABOR SAVER™ Primary/Secondary Manifold Included
- Wall Hung or Floor Base Kit Available
- Chimney or Horizontal Vent
- Advanced Controls - Digital Display with temperature indication, diagnostics and status symbols showing: Heating mode, Burner On and Burner Modulation Level
- Combi Model: Stainless Steel Brazed Plate Heat Exchanger for potable domestic hot water

Shown with optional floor base kit

## SVB Cast Iron Induced Draft Chimney/Side Wall Vented Boilers

- MBH Input 42.5 - 187.5 (CH)
- Up to 84.4% AFUE
- Dependable Cast Iron Heat Exchanger with Cast Iron Push Nipples
- Honeywell High Limit/Electronic Ignition Control
  - Recessed under the boiler's protective jacket
  - Digital Temperature display and diagnostics
  - Plug in connection for the inducer fan
  - Plug in connection for the system pump
- Induced Draft Fan

# MGB-K Cast Iron Chimney Vented Boilers

- MBH Input 59 - 235 (CH)
- 84% AFUE
- Dependable Cast Iron Heat Exchanger
- Hydrolevel FuelSmart Control
- Digital temperature display and diagnostics
- Built-In Low Water Cut-Off (LWCO)
- Control monitors water temperature and delays burner start until residual heat has been transferred to the system for maximum efficiency
- Low profile draft hood diverter

# PEG-E Cast Iron Steam Boilers

- MBH Input 75 - 299 (CH)
- Up to 83.4% AFUE
- 7 Sizes Available
- Dependable Cast Iron Heat Exchanger
- Electronic ignition system
- Automatic Vent Damper
- LWCO (Probe Type) externally mounted for quick access
- Pressure High Limit Control with Pressure Gauge and Gauge Glass
- Stainless Steel Burners
- Easy Serviceability

## JE COMMERCIAL Cast Iron Commercial Steam Boilers

JE Commercial Bases are pre-assembled at the factory with burner manifold, burner orifices, gas valves and electronic ignition installed; ready for field installation of the pre-tested sections and appropriate packages.

### Electronic Ignition Base Standard Equipment:

- Base
- Fire Door
- Burner Orifice
- Manifold
- Main and Pilot Burner
- Electronic Pilot Gas Valve
- Intermittent Pilot Module
- Complete Jacket Assembly

### Steam Trim Package:

- Low Water Cut-Off
- Glass Gauge Set
- Safety Valve
- Steam Gauge
- Pressure Limit
- Drain Valve

### Plug 'N Play Harness and Junction Box

Individual base and junction box controls are designed for easy installation. The entire boiler links together in a snap with a color-coded factory supplied wiring harness

### CSD-1 Options

Available with a CSD-1 option to comply with CSD-1 standards where required by building code. The CSD-1 option provides the increased number of controls and safety devices required to meet CSD-1 standards.

General Information (See IOM for Complete Instructions)			
	Right & Left End Tappings	Opening	Size
	Return/Supply	A	4"
	Primary LWCO & Gauge Glass Set	B	1/2"
	Drain, Left End	C	3/4"
	Drain, Right End	C	3/4"
	Plugged	D	1/2"
	Accessories	E	1"
	Safety Valve	F*	1"
	Plugged or Electronic (Probe Type) LWCO	G	3/4"
	*If using opening F for other than Safety Valve or Safety Relief Valve, or Safety/Relief valve is larger than 1", Install Safety/Relief Valve in Header Piping as near boiler as possible.

**JE- Standard Equipment**

Standard Equipment:

(67 Low Water Cut-Off, PA404A Pressuretrol and Syphon Loop, Water Gauge Glass Set with Glass and Rods, Steam Gauge, Pop Safety Valve).

**CSD-1 Control Requirements**

The optional CSD-1 controls modify the standard JE boiler on both the fuel train and the steam trim as follows:

**STEAM BOILER WITH BOILER FEED PUMP RETURN SYSTEM**

- Add SF-500 Hydrolevel Safeguard Manual Reset L.W.C.O.
- Add 150S-B-MD L.W.C.O. and Pump Control
- Delete 67D-1 L.W.C.O.
- Add L404L Manual Reset Pressure Control

**STEAM BOILER WITH GRAVITY OR CONDENSATE PUMP RETURN SYSTEM**

- Add SF-500 Hydrolevel Safeguard Manual Reset L.W.C.O.
- Add L404C Manual Reset Pressure Control

The SF-500 L.W.C.O. is the secondary L.W.C.O. to the 67D-1 L.W.C.O. furnished standard with the boiler.

**FUEL TRAIN**

Substitute CSD-1 fuel train(s) for standard which includes (per base): Intermittent Pilot Module (PT#1140007) control Stop w/alarm 1003-612A & (PT#1140008) Control CSD1 Lockout Board BD 1145-2 with manual reset; Independent Pilot Gas Line (Manual shut-off valve, Pressure regulator, Safety shut-off valve); Main Gas Line (Gas Valve, Two leak test cocks, Manual shut-off downstream of the main gas valve).

**NOTES:**

1. The JE-300 and JE-400 do not require fuel train modifications for CSD-1. The standard fuel train is furnished.
2. Control equipment is included to meet Utica's interpretation of CSD-1. Consult local authorities before the installation of the boiler. Additional controls, if required can be provided at an additional price.

## TRIFIRE TRB Cast Iron 3-Pass Oil Boilers

- MBH Input 105 - 266 (CH)
- Up to 87% AFUE, ENERGY STAR® Certified Models
- Advanced High Efficiency 3-Pass Heat Exchanger Design
- High Limit Control with:
  - LED display
  - Easy to program dial settings
  - Boiler Water Temperature Reset
  - Low Water Cut Off (LWCO)
- Compact Footprint
- Burners and Venting Options
- Easy Serviceability

General Information (See IOM for Complete Instructions)				
Model	TRB4	TRB5	TRB6	TRB7
Water Return/Supply	1 1/4" NPT			
Drain Valve	3/4" NPT			
Electrical	120 Volts AC, 60 hertz, 1 phase, less than 12 amps (15 amp circuit recommended)			
Water Content (Gallons)	3.6	4.3	5.1	5.9
Dimensions	A-Height	31"	31"	31"
	B-Width	17 3/4"	17 3/4"	17 3/4"
	C-Depth	18 3/8"	21 5/8"	24 7/8"

## DHW MODULE Domestic Hot Water Module (Sold Separately)

- The Domestic Hot Water (DHW) Module is a great way to make domestic hot water using an existing boiler
- Digital control has the ability to set a consistent DHW temperature from 108°F - 140°F
- Brazed plate stainless steel heat exchanger offers lower pressure drop than tankless water coils with nearly 100% heat transfer efficiency
- Simple and flexible installation - mounts on a wall near the boiler as an additional heating zone
- Compact design with insulated cover and a standard 120 volt power cord
- Easy to service and clean

# STARFIRE SFH Cast Iron Chimney Vented Oil Boilers

- MBH Input 119 - 259 (CH)
- Up to 87% AFUE
- Dependable Cast Iron Heat Exchanger with Cast Iron Push Nipples
- Hydrolevel Operating Control
  - Digital Temperature display and diagnostics
  - Adjusts water temperature based on heating system demand
  - Built-In Low Water Cut-Off (LWCO)
  - Boiler Reset
- Burner swing door for easy serviceability
- Multiple Firing Rates
- Optional tankless domestic hot water (DHW) coil

## SBO Cast Iron Steam Oil Boilers

- MBH Input 119 - 210 (CH)
- Up to 85.6% AFUE
- Dependable Cast Iron Heat Exchanger
- Cast Iron Swing out Burner Door and large flueways allow for easy cleaning and servicing
- Honeywell Pressure Control, Boiler Water Level Gauge Glass, and Steam Pressure Gauge
- Electronic Low Water Cutoff (LWCO)
- Atmospheric Chimney Vent Boiler

General Information (See IOM for Complete Instructions)				
Model	SBO-3085	SBO-3105	SBO-4125	SBO-4150
Return/Supply Tappings	1 1/4" Return NPT, 2" Supply NPT			
Oil	3/8" O.D. Copper (runs 50' or less, 1/2" O.D. Copper (runs over 50')			
Electrical	120 Volts AC, 60 hertz, 1 phase, less than 12 amps (15 amp circuit recommended)

## H2O GL Single Coil Glass Lined Indirect Water Heaters

- 31 - 106 Gallon Capacities
- Easy to Install
- Low Pressure Drop
- Magnesium Anode Rod Corrosion Protection
- Enameled Coated Steel Tank and Coil
- Minimal Standby Losses
- Flexible Scratch Resistant Jacket
- Aquastat Sensor Well
- Temperature Pressure Relief Valve

(H2O40GL Model Shown)

## TERMS & CONDITIONS OF SALE - GENERAL TERMS

**PRICES & SPECIFICATIONS:** All pricing and specifications subject to change without notice. The prices herein supersede all prior quotations.

**ORDERS:** Orders will be accepted based on prices in effect at the time the order is received. No order or contract will become an obligation on our part until accepted by the General Sales Department. ECR International shall not be liable for any delay or failure in the delivery or shipment of goods due to any cause or causes beyond its control.

**TAXES:** Add to the prices and terms quoted any manufacturers' or sales tax payable on the transaction under any effective statute.

---

### SHIPMENTS

**TRUCKLOADS:** \$50,000 Net Order Value - Freight Prepaid. Indirect Water Heaters and Commercial Boiler lines can be added to any residential order for freight purposes. Authorized Distributors can combine Argo, Airco, Dunkirk, EMI, Olsen, Pennco, Utica Boilers and Utica Heating on one purchase order to earn free freight.

Stop off charges of \$150 will apply to stop off locations within 100 miles of the final destination. Please call for pricing for stop off special handling for a location further than 100 miles or for special handling pricing for services such as lift gate, unloading assistance, etc.

**LESS THAN TRUCKLOAD SHIPMENT: F.O.B. ECR INTERNATIONAL - FACTORY OR WAREHOUSE**

**See Shipping and Delivery Policy for full details.**

---

### SALES ORDER INFORMATION CHECK LIST

The following information must be included on equipment or parts orders to insure proper shipment & invoicing:

- |  |  |
|--|--|
| 1) Purchase Order Number                       | 7) Pricing   |
| 2) Bill to Address                             | 8) Product Description (Model, Size, etc.)   |
| 3) Ship to Address                             | 9) Fuel Type (Oil, Natural Gas, Propane)   |
| 4) Method of Shipment (trailer load, UPS)      | 10) Electrical (Operating Voltage, Cycles, Phases, etc.)   |
| 5) Requested Ship Date                         | 11) Non-Standard Equipment (Indicate "Optional" when substituted for standard equipment at extra cost listed. Indicate added to standard equipment.) |
| 6) Special Instructions ("Carrier to call...") | 12) Kits or Parts (Orders for kits or parts must indicate equipment size and series.)  |

Send orders to:

**E-mail: [ecrorderentry@ecrinternational.com](mailto:ecrorderentry@ecrinternational.com)**

**Fax: (315) 724-9319**

Please note the following Remit to Address:

**ECR International, Inc.**

**P.O. Box 8000 Department 039**

**Buffalo, NY 14267**

## SHIPPING AND DELIVERY POLICY

Order type/value*	Freight Charge*
All UPS, Fed Ex, DHL etc. shipments	Actual Freight Cost Apply
\$0 - \$5,000	Actual Freight Cost Apply
\$5,001 - \$15,000	\$300
\$15,001 - \$49,999	\$250
\$50,000+**	FFA

\*The above freight terms apply to single purchase orders or combined purchases orders from one company with one stop totaling the above reference tiers. Additional stops will incur additional charges. Pooling from multiple companies is not allowed under this freight program.

\*\*Orders of \$50K or more from one company with multiple stops will incur a \$150 stop-off charge per stop after the first. Each stop-off location must be within 100 miles or additional charges will apply.

Because of the nature of packaging and shipping constraints EMI, Enviroair and Retroaire do not qualify for this program unless prior approval is obtained.

Except for FFA qualifying orders, the above US shipping rates apply to shipments east of the Mississippi River. If shipments are outside of that area actual freight rates will apply.

These rates apply to destinations where no special delivery requirements are needed. Additional charges will apply when special handling and delivery is incurred. Pre-shipment notification of any special shipping or handling provisions is required. Unless otherwise noted all products will be shipped FOB Shipping Point and transfer of ownership and responsibility is assumed by the customer for all loss or damage. ECR International will not be held liable for any damage, loss or costs which occur due to shipping delay. ECR retains the right to change or alter this program without notice and without penalty

As a reminder, orders of boilers, furnaces, air-conditioning and controls can be combined to achieve freight tiers.

If you have any questions, please contact your ECR representative or ECR Regional Sales Manager.

## U.S. DISTRIBUTOR - RETURN MATERIAL POLICY (RMA)

**Prior Approval Required** - All returns for exchange, credit, repair service or warranty claim must be approved by ECR International and require an RMA number prior to return of the material. A request must be completed via the online web portal. Please log on to [www.ecrcustomerportal.com](http://www.ecrcustomerportal.com) to complete your request for return. If you do not already have access to the customer web portal, please contact ECR International Customer Service at 1-800-325-5479 to be set-up.

**Eligibility** – An RMA Request must be received within 60 days from the date of invoice for returns of New & Unused product in original packaging. A restocking fee of 15% will be charged for all new and unused returns that are approved for return. Special Order Products (items not offered as standard in ECR International trade price book) are not eligible for return as new and unused product. Request for Warranty Returns must be made within the period covered by the warranty and must fall under the terms and conditions specified in the warranty.

**Repair Service** - Request for repair or rework of product damaged by customer is classified as Repair Service. Repair Service is billed at \$75.00 per hour for labor and net price for parts used in repair/rework. ECR International's Return Material (RM) department will evaluate the items returned for repair service. The customer will receive an estimate for the dollar amount, determined by ECR International's RM department, required to complete the repairs requested. A Purchase Order (PO) from the customer for that amount will be required before any work is performed.

**RMA Expiration Parts** - Once the RMA number is issued, the product must be returned within 60 days of the RMA date, or the RMA will be canceled. Products approved for return that are received after 60 days from the RMA date will not be accepted.

**Shipping & Packaging** - All returns must have a valid RMA number clearly displayed on the exterior of the package or the package will not be accepted. All returns of new and unused product must be in the original packaging. All returns must be shipped prepaid by the customer unless otherwise directed by ECR as indicated on the RMA Verification. Ship all approved return material to the facility indicated on the approved RMA Request by the date indicated.

**Replacement Product** - If replacement product is desired it must be indicated on the RMA Request. A PO# is required for the replacement shipment and must be indicated on the RMA Request. All replacement products will be invoiced at the time of shipment. ECR will pay the ground freight for all warranty replacements.

**Application of Credit** - Credit for returned product will be applied to the customer's account (less restocking fees for New and Unused returns) only after confirmation of receipt by ECR and inspection of the product. Issuance of a credit for a partial return of product does not relieve the customer from the obligation to remit payment for the merchandise not returned in accordance with the payment terms referenced on the customer's invoice(s). Customer will have the option to have any product that is denied for credit returned at their expense.

**Returning Installed Finished Goods** (Complete boilers, furnaces, A/C units etc.)

- Equipment that is already installed should be repaired not replaced. Exceptions: leaking cast iron boilers in their first year or leaking water tanks. Leaking drain valves on water tanks are replaceable, make sure the leak is not on the valve. Tanks returned with the only leak being on the valve will be denied.
- Cast iron blocks (not complete boilers) older than one year and Indirect tanks that are leaking do not require prior approval. Simply type "Leaking" into the Authorization field and it will be accepted. Complete Cast iron boilers within their first year will still require prior authorization for full boiler replacement.
- Water leaks on copper and condensing boilers are repairable and will require prior authorization for any reason for removal.
- To guarantee credit, if a situation arises where equipment does need to be replaced, **prior authorization** from ECR is required. This will ensure that ECR has visibility to the problem and has had an opportunity to correct it prior to removal. *All equipment considered for removal should first be brought to the attention of Technical Support at 1-800-253-7900.*
- If approved, an authorization number will be given that will need to be entered in the RMA on the Customer Portal.
- For equipment that is removed from service without prior authorization by ECR, contact Customer Service. They will evaluate the circumstance and can issue a conditional RMA. The equipment will be tested in our lab to determine if removal was warranted and if credit will be given.

**RMA Expiration Equipment** - Once the RMA number is issued, the product must be returned within 30 days of the RMA date, or the RMA will be canceled. Products approved for return that are received after 30 days from the RMA date will not be accepted.
