RE: Dunkirk D248 Series Commercial Boiler

Dunkirk Boilers proudly announces the launch of our new D248 Series Boiler. This Next Generation Commercial Boiler is an example of Dunkirk's commitment to our customers – providing the greatest *value* to them by listening and responding to their needs through continuous improvement.

Featuring an enhanced contractor-driven design, the new D248 Series offers fast, easy installation with Plug 'N Play wiring, optional modular efficiency with the addition of an Argo AMB Control Kit, easy access jacket panels, improved cast iron sections and the peace of mind of a 10 year limited warranty on cast iron sections (water and steam).

Available in 28 sizes with capacities ranging from 300 to 3,000 Mbh, the new D248 Series replaces our existing D247 Series.

New Feature Highlights Include:

Plug 'N Play Harness & Junction Box

- Terminal block for landing the supply power wiring
- Plug and Play harnesses for quick and easy connections.

Modular Efficiency

- Optional Argo control can stage fire the individual bases to maximize efficiency.

| Part Number | Model Number | Where Used |
|-------------|--------------|-----------------------------|
| 550001730D | AMB4A | 1 to 3 Modular Base Boilers |
| 550001731D | AMB8A | 4 to 6 Modular Base Boilers |

New Jacket Panels

- One piece top/front panel which is easy to install and protects the controls from damage.
- Includes a removable cover to gain access to the controls without removing the jacket.
- Lift out door provides easy access to burner inspection.

New Cast Iron Sections

- New design for increased reliability and improved performance.

Peace of Mind

- All Boiler bases are factory assembled and live-fire tested.
- Controls and Junction Box are factory tested.
- 10-Year Limited Warranty on Cast Iron Sections (Water & Steam)

CSD1 Option

- Available on the 300 Mbh through 2,500 Mbh sizes.
